MASSEY-HARRIS

The Premier Heavy Crop Blader

Almost any blader will handle a light crop of
grain; but it takes a good one to handle a heavy
grain crop.

The Massey-Harris will do this where others fail. A reel
that can be adjusted to heavy positions, low placed
great elevating capacity and ample draft make it a feature
which sets the Massey-Harris apart from all other heavy
crops. You can't go wrong in buying a Massey-Harris.

Will be exhibiting a Car of Models Tomorrow

A.P.G. and U.G.G. in Shoot to Kill is Order Wheat Pool

As a result of negotiations which
have been pending for some time,
the trustees of the wheat pool are
able to announce that the Alberta
Pacific Grain Company, as well as
the United Grain Growers, has
offered the use of its whole line of
elevators in Alberta to the pool.

The terms submitted by the
Alberta Pacific Company and the
U.G.G. are practically similar, fol-
lowing generally the arrangements
made between the elevator com-
panies and the wheat board in 1919.
Negotiations are not pending in
Winnipeg with other elevator lines
operating in Alberta.

The trustees feel that the eleva-
tor problem has been very greatly
simplified by the action of these
two companies.

There are still a few details to be
settled, but the arrangement
with the Alberta Pacific Company
is practically settled, Calgary
